Pain

Do you get it?

A FREE
PUBLIC SEMINAR
FOR EVERYONE

Do you live with pain?

It's time to FLIP how we think about, talk about, and treat chronic pain. This FREE public seminar will introduce some of the latest - and often surprising - scientific understanding of pain, and explain why it could be relevant to YOU. The event will include an audience Q&A with a panel of experts including people living with pain.

Changing how we think about pain can change how we manage it
